CR8SP - POSTS
TECHNICAL SPECIFICATIONS

Range Includes

- CCTV security camera posts
- LPR (licence plate recognition) posts
- Lighting posts
- Duress/emergency help points
- Solar panel posts
- Posts for other security equipment requiring elevated support

Features

- 100% Australian designed and fabricated.
- Hot dip galvanised or powder coated.
- Cable access plates at rear of main post for easy cable installation.
- Internal electrical segregation within main post.
- Posts are surface base mounted using a Create Security custom designed anchoring system.
- Main post is elevated off a concrete base and non-shrink grout is applied under the base for water proofing and vermin control.

Available Options

- Posts and brackets can be made to order based on your specific design.
- Engineered break back/pivoting pole for easy maintenance of mounted equipment.
- Relocatable or rapid deployment.
- Anti-tamper climbing devices.
- Form 15 and Form 16.
